

SUPPLY CHAIN OPERATIONS INTERN CANDIDATE

PRECISION & OPERATIONAL AGILITY

Leveraging dual-degree academic rigor, real-world 3F agribusiness logistics experience, and AI-driven workflow optimization to empower Vinamilk's farm-to-table excellence.

Pham Minh Hoang

Final-Year Senior • National Economics University (NEU)

Dual Degrees: Logistics & SCM | International Business Management

KEY PROFILE METRICS

3.52

NEU GPA / 4.0

6.5

IELTS Band

0

Demurrage Days

✓ 100% OPERATIONAL GRIT

- **Practical Agribusiness Logistics:** Hands-on operations at C.P. Vietnam Corporation (3F model: Feed-Farm-Food).
- **Zero Cost Penalties:** Successfully cleared 10 raw material import shipments with 0 demurrage or detention.
- **AI Operational Automation:** Pioneered custom AI agents to streamline tracking & reporting workflows.

CANDIDATE PROFILE

Analytical Mind, Hands-On Instinct

Final-year student at National Economics University (NEU) simultaneously completing two competitive bachelor degrees in Logistics & Supply Chain Management and International Business Management.

"Supply chain operations is the art of synchronizing physical velocity, data integrity, and strict quality compliance. I don't just observe—I execute."

TAGS: Dual-Degree NEU • IELTS 6.5 • ICDL Certified • AI Agent Developer

THEORETICAL GROUNDING • NATIONAL ECONOMICS UNIVERSITY

Rigorous Supply Chain & Operations Foundation

- Deep understanding of queueing theory, capacity bottleneck identification, aggregate planning, and Lean waste reduction to compress order-to-delivery lead times.
- Mastery of international commercial terms (Incoterms 2020), import-export documentation, and payment verification methods (L/C, T/T).

Key Coursework: Global Logistics (8.9/10) | Logistics Ops Management (8.8/10) | Foreign Trade (8.4/10)

OPERATIONAL EXPOSURE • C.P. VIETNAM CORPORATION

3F Model (Feed-Farm-Food) Logistics Immersion

- **Customs Declarations:** Successfully cleared 10 import shipments of core agricultural feed ingredients via ECUS5-VNACCS with 100% compliance.
- **Specialized Regulatory Compliance:** Researched HS codes and coordinated with veterinary quarantine authorities to satisfy food safety & phytosanitary standards.
- **Airport Ground Handling:** Directly executed live chicks air cargo clearance at Noi Bai Airport, minimizing transit stress.

3 Pillars of Operational Excellence

Combining field-tested execution, rigorous financial auditing, and modern AI automation

01

EXECUTION

End-to-End Operational Execution & Compliance

- Reconciled commercial docs (B/L, Inv, PL, C/O) with 100% data integrity before declarations.
- Successfully declared & cleared 10 raw material feed shipments via ECUS5-VNACCS.
- Directly executed ground ops and air cargo clearance for live chicks at Noi Bai Airport.

 0 demurrage or detention incurred

02

ANALYTICS

Cost Auditing & Analytical Problem Solving

- Formulated and maintained detailed Shipment Cost Sheets for trucking, ocean freight & port fees.
- Rigorously audited carrier invoices to eliminate billing discrepancies and maintain cost accuracy.
- Applied queueing models & safety stock calculations to resolve flow bottlenecks.

 100% cost auditing accuracy on billing

03

INNOVATION

AI Automation & Digital Agility

- Pioneered building custom AI agents on Google Antigravity to automate logistics tracking & synthesis.
- Replaced manual Excel reconciliation with automated scripts, boosting daily reporting speed.
- ICDL International Computer Certificate; advanced Excel modeling (VLOOKUP, Pivot, Models).

 Ready for smart digital supply chain

Passion Meets Benchmark Scale

Connecting personal operational drive with Vinamilk's world-class dairy ecosystem

FIELD PASSION

Why Supply Chain Operations?

- **The Backbone of Daily Nutrition:**

Captivated by the synchronized orchestration of raw materials, cold storage, and express distribution where every hour saved directly protects nutritional freshness.

- **Where Analysis Meets Floor Reality:**

Supply chain operations is the ultimate arena where analytical models are tested against dynamic lead times, sudden volume surges, and tight transport schedules.

- **Scalable Societal Impact:**

Optimizing distribution networks directly ensures essential dairy products reach millions of Vietnamese children and families reliably every morning.

TARGET DESTINATION

Why Vinamilk 2026?

- **Vietnam's Apex FMCG Supply Chain:**

Vinamilk sets the gold standard with automated Mega Factories, high-bay AS/RS smart warehousing, and high-standard dairy farms nationwide.

- **Bridge from 3F Agri to FMCG Dairy:**

Having managed feed import operations at C.P. Vietnam, I am hungry to elevate my expertise into Vinamilk's integrated "Farm-to-Table" cold chain.

- **An Action-Oriented Culture:**

Vinamilk's promise—"direct participation in operational activities rather than observing from the sidelines"—matches my proactive, high-ownership mindset.

Learning Objectives & Value Delivery

A dual commitment: rapid personal mastery and measurable operational contribution

LEARNING OBJECTIVES (GROWTH ROADMAP)

Smart Warehousing & DC Operations

Gain hands-on exposure to automated AS/RS storage, inventory turnover control, and cold-chain distribution center flows.

End-to-End Systemic Thinking

Observe how dairy farming, mega-factory processing, and nationwide primary/secondary transport synchronize under peak loads.

Continuous Improvement (Kaizen/PDCA)

Learn structured root-cause problem solving to pinpoint bottleneck delays and compress order-to-delivery lead times.

VALUE DELIVERY (DAY 1 IMPACT)

Day-One Document & Cost Precision

Bring proven customs clearance and cost-auditing vigilance from C.P. Vietnam to maintain 100% compliance in operational paperwork.

Workflow Automation & Productivity

Leverage AI agent scripting and advanced Excel data modeling to eliminate repetitive tracking tasks and build daily operational summaries.

High Grit & Long-Term Commitment

Eager to tackle challenging floor assignments, with the explicit goal of advancing into a full-time Supply Chain Specialist role at Vinamilk.
